## Horse Stall Components

## A B Martin Roofing Supply carries a full inventory of Horse Stall components and accessories.

### Horse Stall Installation:

Beautiful & Durable horse stalls constructed with Tongue & Groove Southern Yellow Pine 2x6 or 2x8 lumber fronts and partitions. All wood is surfaced on 4 sides for a smooth finish. Use treated lumber for the bottom two rows to resist rot and decay from contact with ground and manure. Yellow Pine is a beautiful wood that provides unequaled strength and accepts finishes well. The tongue and groove design provides a unified construction for strength and durability. Combine this with our black powder coated grills and accessories for a truly finished appearance.

## Powder Coated Horse Stall Components

### Stall Wall Rails, Wall Caps and Corner Angles

Our full line of powder coated black steel rails, caps and angles let you complete your stall system to suit your needs. Our heavy duty stall wall rails attach easily to any post for receiving the ends of the stall wall planks. Wall caps prevent cribbing on any exposed plank edges. Corner angles make the ideal cribbing guard for wooden posts.

## Track and Trolley Systems

Cannonball:HNP has matched up the ideal track and trolley combination for horse stalls. Your stall system will come with our easy-to-install weatherstrip track, powder coated black to match the finish of your stalls. Your stall door will be carried by a pair of Delrin strap trolleys with the straps also coated to match the stalls. This self-cleaning and self-lubricating system is backed by a lifetime warranty on the track and trolleys.

## Window Grills

Our window grills feature fully welded construction with 14 ga. powder coated black galvanized steel. Available in a wide variety of sizes to fit most common window openings. Window grills allow you to safely include windows in your barn and stall designs. The pole spacing of the grills prevent the horse from getting at the window while still allowing access to the window for fresh air and natural lighting.

## Door Keepers

Our welded steel keepers serve as the guides and stops for the stall door. The fully hidden design eliminates any exposed points that could injure your horses or yourself. Easy to install, simply position the keepers where desired and attach with the provided fasteners. No moving parts to wear out or break and as everything else they are powder coated black.
