Standard: 16½" Wide Coverage • 1½" High Rib

ABSeam Panel Texture Profile (EScc)

The unique texture redirects light for enhanced visual depth, promising a step-change improvement over flat panel s appearance. Formulated with enhanced WeatherXL silicone polyester, this product delivers proven superior quality for outstanding performance. For all its beauty, it features an enduring weatherability to resist fading and chalking.

- Breakthrough technology for a unique appearance that creates a shifting and shimmering effect
- Proven SMP superior quality for outstanding performance
- A textured coating that meets current solar reflective (SR) standards for LEED and Energy Star
- Strong color retention

Colors are as close as possible to actual colors, but may vary slightly from actual metal. Please request a free metal sample.
