 - Custom:** Striations for added rigidity.
 - Custom:** Clip Relief for added rigidity.

NOTE: Some custom options are not mutually compatible and may require additional lead time.

ABSeam Panel Standard Profile (ABScc)

Why Fluoropon[®]?

For over 50 years, panels using Valspar's Fluoropon[®] coatings (made with 70% Kynar[®]500/Hylar[®]5000 resins) have helped protect commercial, industrial, and residential buildings around the world. This high-performance fluoropolymer (PVDF) resin, with its extraordinary capability to retain color and gloss, keeps coated metal looking vibrant and appealing for decades.

Striations

Clip Relief

We strive to make our color charts as precise as possible, but the accuracy of the painted chips is not guaranteed. For 100% color matching, please request a free metal sample.

ABSeam Trims
