WHY FLUROPON®?

For over 50 years, finishes based on Sherwin-Williams' Fluropon® 70% PVDF resin have helped protect commercial, industrial, and residential buildings around the world.

No other coating system withstands the rigors of nature and time like those based on Fluropon's® 70% PVDF resin system (or Valspar's proprietary 70% PVDF resin system).

This high performance fluoropolymer resin, with its extraordinary capability to retain color and gloss, keeps coated metal looking vibrant and appealing for decades.
