

PVC CEILING & WALL PANELS

Tri-Ply Ceiling

One of the most cost-effective ceilings on the market

Great for use as a ceiling or sidewalls of your agricultural building. This washable, durable, flexible, woven poly material has a coating of poly on both sides of the woven material with one side white and one side black. Insulation can be blown on top of the Tri-ply with ease.

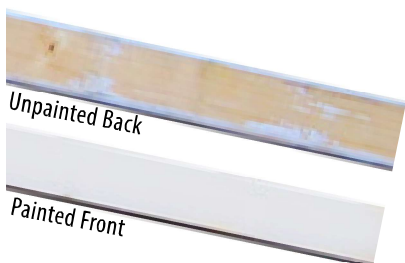

Tri-Ply Ceiling

Part#	Description	Size	Length
TPLPW	Tri-Ply Lath - White Painted 1 Side	1/2" x 1-1/2"	12'

trusscore

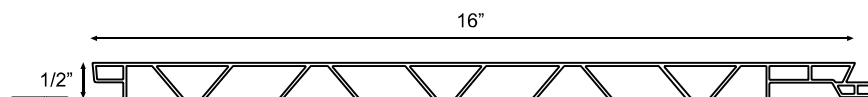

Wall&CeilingBoard

Wherever you need a smooth finish that is easy to clean, low-maintenance, and abuse-resistant, TRUSSCORE PVC Wall&CeilingBoard has your project covered. The panels are 16" wide, 1/2" thick, and come in standard lengths of: 8', 10', 12', 14', 16', and 20' (custom lengths are also available). Trusscore's unique tongue-and-groove interlocking system makes both vertical and horizontal installation quick and easy.

Stocked in White (W) and Grey (G).

Features

- Trusscore Wall&CeilingBoard is an ideal drywall replacement that is easy to use, easy to clean, and doesn't yellow or fade
- Unique high strength truss design provides outstanding spanning capability. It can support attic insulation loads.
- Highly durable surface that is resistant to scratches, bacteria, chemicals, mold, and moisture.
- Class A Fire Rating - flame spread index of 15, as per ASTM E84-18.

trusscore

SlatWall

Whether installed in a commercial or a do-it-yourself project, Trusscore SlatWall will add value and functionality to any space you choose. Made from a high-strength polymer formulation, the Trusscore SlatWall system supports weights up to 75lbs per square foot and is designed to install seamlessly with Trusscore Wall&CeilingBoard. It is the perfect organizational alternative to traditional drywall and slatwall solutions. If you're looking for an organized, accessible solution, the Trusscore SlatWall system is easy to install and has many different available hooks for your storage needs.
